

WEN'S DRAGON

Sok Song
USA

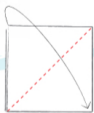

PAPER INFO: 12-inch (30 cm) scrapbook paper was used to make this model that stands 4 inches (10 cm) tall at the head.

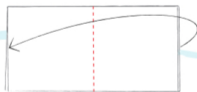

TIPS AND TRICKS: Scrapbook, kami, or giftwrap paper would all work well. The Dragon looks great in different sizes. There is a pocket underneath so you can use the model as a finger puppet or mount it on a stick for decorative purposes. You can inside reverse the legs at the end to make them pointed as shown in the alternate image on the Contents page. Steps 1-6 show an alternate way of folding the Preliminary Base.

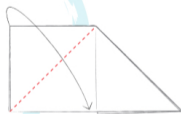

4 Unfold to right.

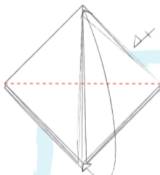

3 Fold down one folded corner.

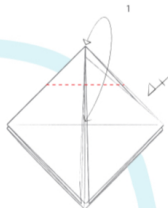

2

5 Fold down other folded corner. Note: the triangle flaps will be on opposite sides.

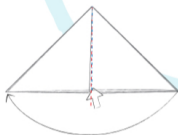

7

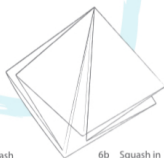

8

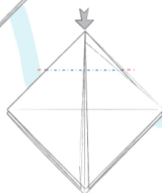

9 Open sink the top using existing creases.

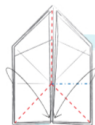

6a Open and squash center pocket as shown.

6b Squash in progress.

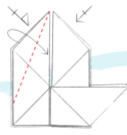

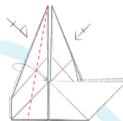

13 Rabbit ear to form the wing.

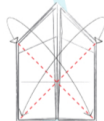

14 Repeat steps 12-13 on other side.

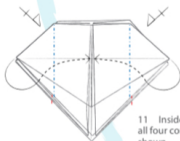

15 Narrow the points as shown. Note: when you are doing the other side, you will need to move the wings over.

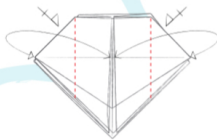

16 Narrow again as shown. Note: beware of paper creep. It's best not to fold quite to the edge.

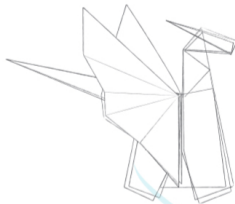

12

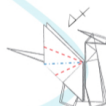

11 Inside reverse all four corners as shown.

10

Finished Wen's Dragon!

23 Pleat the wing. Repeat behind.

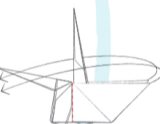

22 Fold up the wing as shown. Repeat behind.

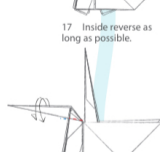

21 Inside reverse so the horn sticks out as shown in next step.

20 Inside reverse the head. Note: the reference is the top of the white section on the inside.

18 Fold down the sides as shown.

17 Inside reverse as long as possible.
